Language: English Brand New Book ***** Print on Demand *****.Excerpt from Graphic Charts in Business How to Make and Use Them This book was written as a companion volume to How to Make and Use Graphic Charts the large demand for which the author ascribes mainly to the tremendous public interest in the subject. The extraordinary growth in the use of graphic methods which has been, perhaps, more voluminous in the last five years than in the whole period prior to 1917, seems to be due to the fact that three of the main functions of charts can be performed by their use much more rapidly, easily and cheaply, than by any other method. For Computation, whereby many, if not indeed most, of the processes of mathematics can be performed without the labor and often without the knowledge of the mathematics involved; for Recording multitudes of facts of a great variety; and, for the Demonstration of facts in a quantitative way, the graphic chart is the best instrument that has yet been developed. As a consequence, thousands of business concerns have adopted graphics as a standard method...
