

God's Two Books: Copernican Cosmology and Biblical Interpretation in Early Modern Science (Hardback)

By Kenneth James Howell

University of Notre Dame Press, United States, 2004. Hardback. Condition: New. Language: English . Brand New Book. How do we resolve conflicts when fundamental sources of knowledge and belief--such as science and theology--are involved? In *God's Two Books*, Kenneth Howell offers a historical analysis of how sixteenth- and seventeenth-century astronomers and theologians in Northern Protestant Europe used science and religion to challenge and support one another. Howell reveals that the cosmological schemes developed during this era remain monumental solutions to the enduring problem of how theological interpretation and empirical investigation interact with one another. Writing history requires a constant shedding of our misconceptions about the past, says Howell. *God's Two Books* reshapes our understanding of the interaction of cosmological thought and biblical interpretation in the emerging astronomy of the Scientific Revolution by analyzing new texts and offering interpretations that cast old materials in a new light. The central argument of this compelling book is that the use of the Bible in early modern cosmology is considerably more complex and subtle than has previously been recognized. Drawing on the writings of Lutheran and Calvinist astronomers, natural philosophers, and theologians, Howell analyzes several underlying patterns of interpretation which affected how...
