They are an excellent opportunity for independent research and differentiation. The workbook is also an invaluable tool providing a variety of ways in which to introduce, practise and consolidate the relevant grammatical structures: from simple gap-fills, to games and cartoons. Cognate work is present throughout, as is translation from English into Latin. The latter is presented in a palatable way, not only as direct translation modelled on examples, but also through hidden translation focused on functions (such as designing gift-tags and dedications). The illustrations, as in the textbook, have been done professionally to support and encourage discovery, creativity and discussion.
