Digital Manufacturing: In Design and Architecture

By BIS Publishers, Asterios Agkathidis

BIS Publishers B.V. Paperback. Condition: new. BRAND NEW, Digital Manufacturing: In Design and Architecture, BIS Publishers, Asterios Agkathidis, This book examines the possibilities emerging for design and architecture by the introduction of novel computer-aided design (CAD) and digital manufacturing techniques. The form studies show the translation of digitally conceived structures into 1:1 physical prototypes. The constructs shown here do not pretend to be perfect finalized objects; they are to be seen as experiments with generative CAD tools, algorithms, and scripting applications, although some of the outcomes look like they are ready to be put into mass production. The insights which arose from these experiments are presented and organized within five production techniques: cross segmentation, accumulation, frameworks, loops, and folding.

Reviews

It is one of the most popular ebook. It usually fails to price an excessive amount of. It has been printed in an extremely basic way in fact it is merely right after I finished reading through this book in which really altered me, change the way I believe.

-- **Sigrid Brown**

Absolutely one of the best pdf we have ever read. I really could comprehend every little thing using this written ebook. I am easily could get a satisfaction of reading a written publication.
